

KENNINGTON

PODCAST STUDIOS

WHO WE ARE

Kennington Podcast Studios is a state of the art recording facility based in the central London filming complex, [Kennington Film Studios](#).

The space can cater for any podcast, vodcast, vocal record, and/or live stream project.

Our in-house team is ready to support all aspects of your booking, or the space is available for dry hire.

TECH SPECS

AUDIO

The studio is equipped with four Rode PodMic dynamic end-address microphones for podcasting, with one Neumann TLM 103 mic available for VO records.

The gallery is equipped with a Behringer X32 Compact digital mixer with live room talkback speakers.

VISUALS

We offer a three Sony a5100 cameras set up – two wall mounted and one free standing.

Alternative 4K camera options are available on request. A vMix operation system is available live cut between camera setups.

LIGHTING

The studio has integrated RGBW LED mood lighting with a LightShark LS-Core lighting desk, a selection of colours available to suit your record. Additional studio lights can be hired through our film studio.

LIVE STREAMING CAPABILITIES

1Gb internet connection with dedicated lines available. The space has six mic inputs and six line level returns via hardwired tielines, plus eight mic inputs and eight line level returns via AES50. Phantom power is available on all inputs.

CUSTOMISABLE SPACE

Lighting can be changed to complement branding, additional lighting can be hired.
Space is fully flexible and can be rearranged to suit the productions needs.

VODCAST

Film or live-stream your vodcast using our wall-mounted camera set up, renting additional camera kit from us or bring your own. You can hire our crew for your production or use your own team.
